

**WE WANT TO HEAR FROM YOU!**

---

# EV READINESS COMMUNITY SURVEYS

To support the expected increase in electric vehicle (EV) drivers traveling through Placer County, we are developing a new strategy to expand EV charging infrastructure, and we want your feedback! Tell us about your travel preferences, thoughts on electric vehicles, and where to put future EV charging stations.

**This is your chance to make suggestions to guide the County's future EV charging infrastructure!**
